ALISO CITY!

ALISO CITY!

THE NEW SANTA FE RAILROAD TOWN

The only regular railroad station between Santa Ana and San Juan By-the-Sea, 14 miles southerly from Santa Ana.

The most beautiful site for a city in Southern California.

Elevated location and commanding a magnificent view.

Abundance of pure spring water piped over the tract.

Only seven miles from the famous Arch Beach and Laguna, which are among the most attractive seaside resorts in Southern California.

A steam motor railroad will run from Aliso City to these beautiful watering places.

The A., T. & S. F. Railroad Company are erecting a large and elegant depot at Aliso City, and a mammoth hotel, with first-class appointments, will soon be erected on a charming hotel site set apart by the syndicate owning the tract.

Climate unexcelled on the coast. Just distant enough from the ocean to avoid the harsh winds and damp fogs. Near enough to embrace the refreshing ocean breezes. Thermometer never rises higher than 80 degrees in the summer and no frost in winter.

Six hundred acres adjoining the townsite is subdivided into five-acre tracts, with abundant supply of pure spring water. Broad avenues.

Soil and location the very best for oranges and raisin grapes, and is first-class for other varieties of fruits and nuts grown in Southern California.

Will be sold at very reasonable prices on the following terms: ALISO CITY!

One-third cash, one-third in three months, and one-third in twelve months. Interest on deferred payments 8 per cent. per annum.

One share of water stock for every acre of land will be issued to purchasers of five-acre lots.

FROM 10 TO 83 ACRES IN COLEGROVE

Will be sold at reasonable rates and on very easy terms.

Colegrove lies in the Cahuenga Valley, just five miles northwest of the Plaza in Los Angeles, and is therefore two miles from the city limits. It is about eleven or twelve miles from the ocean, which is in plain view. It is well elevated, commanding a bird's-eye view of the Pico street and Washington street country. The Los Angeles County Railroad (better known as the "Foothill line") crosses Colegrove, upon which will be located the principal depot of the section. The West End Dummy Railroad is near by. Two large hotels are now under construction, and several others will be built in the neighborhood. The upper portion of the Cahuenga Valley has long been celebrated for the production of early (winter) vegetables, frost being unknown. All varieties of fruits and vegetables are grown without irrigation. The fertility of the soil is remarkable, and the climate unequaled. Ocean and mountain views, and all that. Purest water at from six to twenty feet. Several springs on the 83 acres.

Will be sold at one-half to one-sixth of prices asked for adjoining property

THE FREIGHT JAM.

The Board of Trade Discusses It Coolly.

Angry Advisers Unheeded, and Wiser Counsels Prevail.

The Railroads Escape an Unmerited Keelhauling.

And Are Simply Requested to Do the Best They Can—The Serious Situation at San Pedro Acted Upon.

Pursuant to the call published in yesterday's issue of THE TIMES, a large number of the members of the Board of Trade assembled in their rooms in the Baker Block last night to discuss the situation as regards the freight blockade. President Eugene Germain occupied the chair and A. M. Lawrence was secretary. All the correspondence and telegrams in relation to the issue, which have already been published, were read, and the chairman then asked the secretary if he had any further communications on the subject. In answer the following telegram to Williamson Dunn from H. B. Wilkins was read by the secretary:

SAN DIEGO, Nov. 17.

W. Dunn, Los Angeles: Your letter of 16th received. Relief is afforded us by the opening of the northern route via Ogden and the southern via Deming. All freight coming via the Atlantic and Pacific is to be run special. All cars now laid out should be in very soon.

(Signed) H. B. WILKINS.

A motion then carried that as the business to be transacted by the board was of great importance to its members, and should action be taken, it should be by those members, therefore none but regular members of the Los Angeles Board of Trade should be allowed to take part.

Maj. Furrey was the first speaker on the subject in hand, and he thought that the mere fact that the Board of Trade had taken the matter in hand would be sufficient to stir the railroads up and so do the necessary good the projectors of the meeting had in view. It was of no use to crowd the roads too much, as it was evident that in every department the railroads running into this city were working night and day.

Mr. Dunton then stated that while the mere holding ot a meeting of the Board of Trade may have the effect they desired, he, for one, was in favor of giving them a dose of the opinions of those members, now they had been compelled to hold a meeting. He had no fault to find with the officials of the roads personally, especially Mr. Williamson Dunn, who had always treated him like a gentleman and was a gentleman. What he had to grumble about was, that no matter how much the merchants needed the goods they had ordered, and in many instances paid for, the railroads did not appear to pay enough attention to the complaints, but were continually saying that the blockade would soon break up and the road be clear again. Now, what he wanted, and he would put it in the form of a resolution, was that the secretary of the Board of Trade be instructed to write the officials of the roads running into this city, that it was the sentiment of the board that due diligence was not used by the roads in handling the freight shipped to this city, and that such steps should be taken at once as would remedy the evil.

Mr. Cohn said that the railroads were already trying to carry more freight than they can handle readily. It is of no use to appeal to any one company, as both are so crowded with business at present that one can do no more than the other. An amendment was here made to Mr. Dunton's resolution to the effect that the meeting give the railroad ten days in which to get away with the blockade, and that the secretary be instructed to so notify them. The amendment was put to the vote, and was lost by a vote of 11 to 9. The resolution was then withdrawn and not voted upon.

Mr. Gibson then took the floor, and after making a short but concise and temperate little speech, offered the following resolution, which was carried unanimously:

"Resolved, that while we appreciate the heavy and unexpected pressure upon the freight facilities of the railroads running into Los Angeles, the Los Angeles Board of Trade desires to especially draw the attention of the officials of those roads to the great wrong done to the trade of Los Angeles by these freight delays, and requests their early and earnest efforts to improve the present condition of affairs."

This resolution having carried, and it appearing that no other business was before the meeting, a member made a motion to adjourn subject to the call of the Chair, when Mr. Cuzner, of the Kerckhoff-Cuzner Lumber and Mill Company of Los Angeles and San Pedro, asked that the motion to adjourn be suspended while some action be taken by the meeting regarding the subject of freights by water as well as by land. The speaker said that since the mob had been allowed to rule the roost at San Pedro the ship-owners had refused to charter a vessel for that port. "There is no doubt but what the mob has control of all hands there, as it has been found impossible to get a crew for any vessel in the port without paying such an exorbitant rate of wages that the freights had to be increased at a ruinous rate to enable the dealers to handle lumber at all. Worse than that, since the vessels have been unable to secure crews at San Pedro, no vessels will unload there, and the result is that the vessels already chartered for San Pedro have carried their cargoes to San Diego, and if we want them we must pay the extra freight by road from that port to this. One vessel which sailed last week had been lying at anchor in the harbor for nearly three weeks before it could get a crew, and when it did finally get one it was only by sending them aboard in the night. I tell you, gentlemen, that there is a lumber famine upon us unless some steps are taken to root out this disorderly mob, and the quicker it is done the better for us all. I have in my possession letters from Mr. Kerckhoff, who is now in San Francisco trying to charter some vessels, in which he distinctly states that he will be unable to get a solitary vessel until some steps are taken by which he will be able to guarantee a crew to the ship-owners when the vessel is ready to sail again. Therefore, while we are here, I think we can do no better than look into this matter. The wages paid to sailors in San Francisco are but $35 per month, and yet by virtue of the ascendancy some ill-disposed persons at San Pedro have obtained over the seamen by telling them numerous lies, the men at that port demand $50 and $55 per month. It is outrageous, and officers shou'd be selected by the Board of Supervisors of this county and stationed there, so that when we bring a crew from another port, in default of being able to get the men from San Pedro, assistance may be rendered by the authorities in getting these men on board their ship free from the interference of these men, who are doing us all this damage. I move that three members of the board be appointed by the Chair to wait on the Board of Supervisors and state the case to them, and ask that the extra officers be stationed at that point."

W. H. Perry of the W. H. Perry Mill and Lumber Company then said: "We are virtually boycotted at San Pedro by the Ship-owners' Association on account of the trouble a few of these lawless men have given the association, because the ship-owners will not submit to the extortionate rate of wages demanded by them. One year ago the freight rates for lumber were little over half what they are now, and this has occasioned a rise in the price of that commodity, which works a hardship to all classes. Nearly all the summer I have had to pay a heavy bonus from my own pocket to seamen to enable my captain to get a crew, and that is why the rates are now so much higher. The ship-owners cannot and will not submit to the indignities their members had to take from this scum of San Pedro, and as it is a well-known fact that some of the local officers of the law at that port are standing in with the riotous seamen, it is not to be wondered at that the association now refuses to charter any more vessels to that port while that state of affairs is allowed to exist. Why, I know of one gentleman who paid an officer out of his own pocket to remain there and protect his crews when he is desirous of shipping them, and it has almost reached that point when we will have to do the same or allow ourselves to be driven from the business we are carrying on. It was but a few days ago when a crew was brought down from San Francisco, and so vindictive was that element at San Pedro we are now speaking about, that for their own protection the men had to be taken on board their vessel under an armed guard, and the vessel compelled to get under way during the night. You have doubtless read the account of the trouble in THE TIMES, and while that trouble exists there is no hope of getting anything like an adequate supply of lumber. Therefore, I am earnestly in favor of the resolution and hope that it will be adopted, and a good working committee appointed to see what can be done by the Board of Supervisors to save the trade of our port."

The resolution was then put to the meeting, and having been carried unanimously, the Chair appointed the following members to serve on the committee: Messrs. Cuzner, S. H. Mott and F. A. Gibson.

On motion, the meeting then adjourned, subject to the call of the chairman.

MR. WHITE'S REGRETS.

The following telegram was received yesterday by Judge Brunson:

TOPEKA, Kan., Nov. 15.

A. Brunson, Los Angeles: Am very sorry to learn of your coal famine in Los Angeles, and regret exceedingly that we are not in condition to help you. The Atlantic and Pacific is blocked absolutely, and it is useless to attempt to handle freight over this line in any kind of time.

(Signed) W. F. WHITE.

MORE WATER WAR.

Detective Marsh on Trial for Alleged Mischief.

In Justice Taney's court yesterday another phase of the Azusa water war appeared in the prosecution of A. W. Marsh on the charge of malicious mischief. It will be remembered by the readers of THE TIMES that on October 13th a number of men went from this city, in charge of Mr. Marsh, to open the Covina ditch in the San Gabriel Cañon, which had been filled with débris by some person having fired a blast inside the tunnel. Who the parties were that fired the shot is not known, and it was for the purpose of also discovering this fact, as well as to see that the water was again turned into the cement ditch, that the men went out there.

But in the night there came quite a heavy rain, and as the river bed was previous to that time inconveniently full, the extra rush of water after the rain, combined with the displacement of the water caused by the débris from the tunnel being thrown into the stream, caused the dam to give way, and before it could be repaired some of the water was wasted. On this charge Marsh and his men were arrested,

Mrs. McDonald Supplies Him With Silk Underwear and Socks—How He Gathered Big Sums in Gold Certificates.

The McDonald case continues to be of absorbing interest in San Francisco. Wednesday's Examiner tells of some of Swalm's boodle as follows:

Detective Bohen examined the trunks yesterday which had been seized by order of Chief Crowley at Colfax, and which formed part of the fugitive's baggage. In one of them was found a sealskin sacque, which had been identified as belonging to Mrs. McDonald, and which was bought by her husband for $350. Besides this a large amount of ladies' underwear was discovered, and which evidently belongs to the same woman. The bottles of perfumery and toilet articles secreted in the trunks were so numerous that he might have represented himself as a drummer for some perfumery house.

Costly clothes and undergarments belonging to Swalm were neatly packed in the trunks. How easy it was for him to procure such luxurious articles of dress may be judged when it was discovered that Mrs. McDonald purchased from a prominent firm in men's furnishing goods the following articles:

January 8th—1 dozen F. & W. collars	$ 2 75
January 8th—4 four-in-hand scarfs	2 40
January 31st—3 suits silk underwear	60 00
July 6th—1 dozen silk handkerchiefs	12 00
July 6th—1 dozen merino socks	18 00
July 6th—½ dozen silk socks	12 00
July 6th—4 pairs silk wristers	5 00
July 6th—18 four-in-hand scarfs	18 00
July 6th—2 Windsor scarfs	1 75
July 15th—6 suits silk underwear	60 00
July 14th—½ dozen merino and silk socks	19 00
Total	$208 90

The bill for these articles was presented to Mr. McDonald, who naturally refused payment, as he had not received any of them.

Chief Crowley was served with a writ of attachment on all the property found in the possession of Swalm, and now in his custody. The plaintiff is Lyman Green, who is the assignee of claims against R. H. McDonald, Jr., aggregating $14,700. This move on the part of the plaintiff shows a conviction that the property found in Swalm's possession belongs to Mrs. McDonald's husband and was stolen from him.

TRUNKS SHIPPED EAST.

It has also been ascertained that recently eight or nine large trunks were shipped from Mrs. McDonald's house at 806½ Haight street, by Wells, Fargo & Co., to some place in the East, and that they were addressed to 'Sanford." It will be remembered that Swalm procured his ticket to New York under the fictitious name of Sanford. Another ticket to New York by the Southern Pacific route was also found on him.

Mrs. McDonald is still in the Receiving Hospital, and occupies a small room allotted to the steward. Efforts are being made by her to communicate with Swalm, who is in the tanks, but every precaution has been taken to prevent it.

HOW SENECA GOT CASH.

The Chronicle says:

It has always been supposed, and most of the daily papers have asserted, that the funds secured by Mrs. McDonald from various sources had been exchanged by her at the Sub-Treasury for gold notes and by her given to Swalm. From facts which have come to the knowledge of the Chronicle Swalm was the person who made the exchanges and received all of the money. Mr. de Greyer, the paying teller of the Sub-Treasury, was asked if he remembered seeing Mrs. McDonald in the Sub-Treasury and if he gave her gold notes of the denomination found in the possession of Swalm.

He replied that he had no recollection of seeing Mrs. McDonald in the Sub-Treasury building, and that he could not tell after such a lapse of time to whom he had given money of any particular kind. All he wanted to do was to carry the day's transactions in his head, and when his cash was found straight at night he dismissed the whole matter from his mind. In fact, he displayed that lofty disregard of the affairs characteristic of a Government official who feels solid in his berth.

From another source the story of the exchange for the gold notes was learned. The first time that Swalm made his appearance at the Sub-Treasury he went there to exchange $15,000 for gold notes. He made his appearance early in the morning armed with some certificates which he wished exchanged for gold notes. He was told that he must make his own collections, and he started off, accompanied by the colored messenger boy of the Sub-Treasury. He was unaccustomed to labor, and could not even carry gold to such an amount. In a short time he came back with the gold, and received fifteen notes of $1000 each in exchange. It is supposed that these are the same notes found in the possession of Swalm when he was arrested at Colfax.

A few weeks after Swalm again went to the Sub-Treasury and asked if he could exchange gold for treasury notes to the amount of $25,000. He was told that he could be accommodated, although the banks were making heavy drafts for currency just at that time. He said the money would be there soon, and he stood around waiting for about an hour for the coin to come. Finally a coupe came and stopped near the door of the Treasury building. Swalm went out and the colored messenger followed. The boy came back with his eyes so wide open that the whites cast a pallor over his whole sable countenance, and reported that there was the most beautiful woman he ever saw in the coupe. She was tall and sleuder, and beautifully dressed, and looked as though she could buy the earth and several corner lots in the moon.

Swalm came back in a few minutes and reported that the money had not arrived, but that it would be received the next day, and took his departure. Next day he was on hand promptly, and, after the usual delay which men must endure who are subject to a woman's caprice, the coupe again appearsd. Swalm went out and in a few minutes called for the messenger boy, who responded promptly, and came back with two bags containing altogether $25,000. He received his gold notes in mixed denominations, running from $5000 down to $50. This was the money recovered by Capt. Lees and Gen. W. H. L. Barnes from Mrs. McDonald at the Palace Hotel when the first story of the troubles was published.

AN ACROBATIC SENSATION.

How Margaret Mather Knocks Out the Doctrine of Chances.

"G. S. J.," in the St. Louis Post-Dispatch, thus discourses of Margaret Mather's wonderful stage fall, now soon to be seen here in *Romeo and Juliet:*

The breathless interest which attaches to Margaret Mather's wonderful fall in the potion scene of *Romeo and Juliet* was touched with laughter last night, owing to the fact that her calculation of the force of her rebounds was not in accord with the result. She calculates to stop within the limits of the stage which is shut in by the drop-curtain.

Last night she did not do it. She went past the imaginary line of the curtain with a whiz that would wrinkle the cover of a base-ball in a Chicago-St. Louis game, and shot out toward the footlights. The curtain dropped and the form of the actress lay stark and stiff on the outside in full view of the house.

This was a delicate situation for all concerned. The effect of the scene was trembling in the balance between enthusiastic applause and unbridled laughter. Miss Mather started to move, and a warning snicker checked her. She concluded not to, and kept quiet. Her lips moved probably in prayer for some self-possessed super who would come to the rescue and save her from the necessity of proving the potion nothing but a miserable pretense, a molasses-and-water imitation of a powerful drug. Her prayer was answered. The super came, moved the curtain out, and when it was drawn up on the lauching recall, Miss Mather was in the embrace of pretended death on the right spot.

Some people may delude themselves into the belief that there is no occasion for a miscalculation to Miss Mather's fall. But there is. Calculation has no part nor lot in it.

It is a fall where trusting faith let-go-all-holds. Providence, and bring-up-when-you-can play star engagements.

It is a fall in one lucky hit; four bounces and six rolls. One mistake in the combination may lead to anywhere. It happened to lead to the foot-lights last evening. The wonder of the audience is that it doesn't lead to a surgical operation or a funeral.

When Sara Bernhardt originated the modern stage fall she never dreamed of Miss Mather's attainment in the same direction.

This is a wrinkle in stage acrobatics which breaks the record and stands among stage falls as a feat of going over Niagara to paddling in a bath tub.

Bernhardt flopped on a sofa and caromed to the floor with the suppleness and grace of a billiard cue. She went at it with tight muscles and got her dull thud and applause. Davenport followed Bernhardt's lead and also took the sofa, and was satisfied with one thud.

Modjeska in her Siberian blood-hound melo-drama wears out a couch and dents the floor with her bumps. Still she gets only one thump, and the element of combination is lacking.

Mather goes beyond them all. She takes a flight of steps to do her falling and runs a gauntlet of fearful risks. It doesn't require any properties, only a friendly curtain, some steps and a stopping place. It saves the stage sofas, but is hard on Mather, the curtain, the steps and the floor.

After drinking the potion, she feels the effect of the drug and wavers around in an uncertain way. Then she suddenly remembers that "Romeo" had recently been at the balcony window, and, in a dazed manner, staggers up the steps. The audience thinks this is a queer thing to attempt in her condition, but trusts to luck to bring her out alive. They go in blind and wait with breathless interest. One can hear a pin drop in the house. The actress leans on the casement, gives a sigh or two for "Romeo," breaths his name, and—well, description stops at this point and wabbles aimlessly for words. She makes a wild clutch at the curtain, fails to reach, swings her arms, her lithe form outlined in the clinging draperies totters, then lurches to one side, brings up and swings around in a frantic search for something substantial. Nothing is found, and it gives up the struggle with a collapse, which rakes the curtain, thumps the first step, "shassays" to the next, bounces to another, flips over and grazes the last and strikes the floor with a rotary motion which sends her whirling over the stage, and rounds her up limp and tousled, with her dress tangled and twisted around her plump limbs and outstretched body.

It is a fall with the genius of daring in it, and is the reigning sensation of the acrobatic drama.

To say the audience is surprised only hints at the pervading emotion. The "ah" that breaks from the throats of the spectators is chock full of breathless relief. Art goes out in the wings and hides his head at its own weakness and the victory of gymnastics. There is nothing in the scenery or the acting that approaches the interest of this drop. It knocks out the doctrine of chances in one frantic cyclone of trembling femininity.

SIXTH DELIGHTFUL

EXCURSION

—TO—

MONTE VISTA,

Friday, Nov. 18, 1887.

The beautiful valley of Monte Vista is situated twenty miles north of Los Angeles city between the main range of the Sierra Madres on the north and the Verdugo Mountains on the south. The general elevation of the entire valley is 1500 feet above tide-water. The Monte Vista tract comprises about 2300 acres, of which about 1800 acres are tillable land of the highest quality known in California, and adapted to the growth of all citrus fruits and many varieties of deciduous fruits. The townsite is relatively small, and is in the southwestern portion of the tract, in which the principal improvements have been made.

Climate of Monte Vista.—Owing to peculiarities of situation, which cannot well be described within reasonable space, but which are immediately perceptible to those who visit the valley, Monte Vista has a climate peculiarly its own. Nowhere else on the coast can such perfect climatic conditions be found. Free from the fogs which fill the valleys below, practically free from frosts, the atmosphere dry and pleasant in winter and summer, being warmer in January and cooler in August than any valley town in the county, Monte Vista is simply unapproachable in the matter of climate. Travelers from all parts of the world have visited it, and, without any exception, have pronnced it incomparable for its softness and its exhilerating qualities. Never too warm, never too cold, a gentle breeze forever tempering the rays of the sun in summer, and the mother mountains enfolding the beautiful valley in her protecting bosom against the cold of winter. Perpetual sunshine makes glad the homes and hearts of all who abide in Monte Vista. In every case of asthma, catarrh, consumption, or general ill health, the advantages of the Monte Vista Valley are superlative. No comparison can be made by us with other places. We ask others to make the most exacting comparisons, not only for a single advantage, but for every one. It is our broad claim that Monte Vista has more advantages for a health resort than any other place in the world. This is from a climatic point of view. With respect to other advantages, we assert that

For Fruit Growing, Monte Vista has the most perfect combination of all the essential elements for the growing of the finest fruits of any place in the world. These essentials are climate (elevation), soil, water, situation. The particular fruits which will make Monte Vista famous within the next few years are Figs, Olives, Oranges, Lemons, Prunes, Cherries, Plums and all sorts of berries.

Water Supply.—So abundant is the water supply that, although several hundred acres are now under cultivation, the water is taken out of the living stream (without resort to reservoirs), the Big Tejunga, and is abundant for every acre in the tract. In addition to this supply, there is the greatest abundance of water all along the south side of the tract; in many places the water breaks out of the surface in living springs.

For Residence, Monte Vista is now only one hour from Los Angeles, thirty minutes by rail and thirty minutes by carriage, a most delightful and surprising drive. Two trains each way daily are met by carriages. A daily mail is received from north and south. An elegant church (Methodist) has been built. Streets have been and are now being graded, and many other improvements have been and are now being made. During the next few months a railroad will be built, connecting with Los Angeles and Pasadena, while there is a very strong probability of two being constructed. Combining all these with the climate, fine mountain water, delightful drives and magnificent scenery, and Monte Vista presents more solid inducements for a home than any other suburban town in the State.

Accomodations.—Monte Vista has two hotels, the Hotel Monte Vista, a first-class house, constructed with a view to the comfort and convenience of guests. It is conducted by the company on the family plan, and we feel confident that we shall not be called egotistic when we say that we give better value for the money than any hotel in California. Rates, $2 to $4 per day; special rates are made by the month. The Park Hotel, also conducted by the company, is a cheaper house, new and clean as a pin, and in every respect a No. 1 second-class hotel. Rates, $2 per day, or $35 per month.

To Reach Monte Vista.—From Los Angeles trains leave every day, as follows: Santa Barbara train at 9:15 a.m. Fernando train at 4:30 p.m. Only one hour to Monte Vista. From Monte Vista station to Los Angeles: Fernando train leaves at 7:50 a.m. Santa Barbara train leaves at 3:30 p.m. Only half an hour on the train. Only half an hour on the carriage.

All lots and acreage will be sold strictly by schedule prices after December 1, 1887. Prices of lots will be furnished on application after November 16, 1887. Excursion FRIDAY, NOVEMBER 18th, at 9 o'clock a.m. Fare for round trip, including lunch, $1.50.

ILLINOISANS WILL MEET.

An Invitation from Their Association to Everybody.

The semi-monthly meetings of the Illinois Association last winter were largely attended and highly enjoyable. Those who ever attended one of them will be glad to learn that the first meeting of the society this season is to be held this evening in Good Templars' Hall, 108 North Main street. The numerous "Suckers" now in Los Angeles will then and there enjoy a social reunion, preceded and followed by some interesting musical and oratorical exercises, including songs by Mrs. Dunham, instrumental pieces by Charles Ward and Prof. Delano, brief speeches by Presidents Ralph E. Hoyt, J. J. Gosper and others. The admission is free to all, and in order that none may feel reluctant in attending, the president has issued the following invitation:

"We welcome to our meetings:
First—All persons who were born in Illinois.
Second—All who were not born in Illinois, but who have lived there.
Third—All who do not know where they were born.
Fourth—All who wish they had been born in Illinois.
Fifth—All who, though born elsewhere, spent time enough in Illinois, during any one of the seven winter months, to have their toes, fingers, noses, ears or eyebrows frozen.
Sixth—All who, coming by rail from points east of Illinois, stopped in the Sucker State not less than twenty minutes for refreshments.
Seventh—All who have friends, enemies or creditors in Illinois.
Eighth—All who have lived in Canada, but have removed to Illinois.
Ninth—All who once lived in Illinois, but removed to Canada. Provided, however, that this invitation shall not be so construed as to include bank officers who took with them all the assets of the institution, not excepting the bank building and the lot on which it stood.
Tenth—All persons who were born anywhere, who came from anywhere, who have lived anywhere, who have been anywhere, or who are going anywhere.

By the term "persons," we not only mean men but we embrace women—the American courts (including the Supreme Court of Santa Monica) having magnanimously decided that women are human beings.

WRESTLING WITH PASADENA.

The Question of Independent Organization or Annexation.

The people of South Pasadena resolutely wrestled last evening, for the third time, with the question of a separate municipal incorporation as against annexation with the present city of Pasadena. The attendance of citizens was large, embracing many "original settlers," who have not been in the habit of attending such meetings. The only progress made seemed to be in the admission on the part of those opposed to annexation that it was impossible to get 160 voters in the district, the number required by the State Constitution, to sign a petition asking for an election to vote on the proposition to incorporate. There were only 110 voters at the last election, and it is very certain that much more than ten of this number are either opposed to any municipal organization or are in favor of annexation.

Mr. Thomas J. Vater, a newcomer from Indianapolis, opened the discussion with an able speech in favor of an independent organization, to which Mr. H. N. Rust, an "old-timer," replied with earnestness and feeling in favor of becoming a part and parcel of the world-wide famous Pasadena, and thereby secure promptly the benefits to be derived in the fight against the saloon element and other evils, in police matters, sewerage, street grading, etc. Capt. Risley, the usually quiet and complacent United States Marshal, took issue with his respected neighbor, and in the most racy and witty speech of the evening won the applause of the house in descanting on the advantages of "minding one's own business," in preference to turning ourselves over to the tender mercies of those who have enough to do in managing their own selfish interests. Mr. Bunker, on the other hand, said Pasadena could and would do more for the southern portion of her rightful domain, as South Pasadena manifestly is, than she could do for herself. Rev. Mr. Merwin also favored this view. Judge Eaton, one of the pioneers, decidedly opposed it, and spoke warmly of his bitter experience in wrenching from Pasadena authorities the right to the benefits of a separate school district.

Several others spoke on the subject, showing that the citizens of the district were pretty evenly divided between favoring separate organization and annexation. A resolution was offered declaring the meeting in favor of an independent organization, if it is practicable. Those opposed asked for further consideration, and, on motion, the meeting adjourned for one week.

It will be a question for Pasadena to wrangle over, whether it will care to accept two or three saloons, even with such desirable territory as lies in front of, and immediately contiguous to, the great Raymond Hotel. It is understood Mr. Raymond himself will kick against annexation. But, as Pasadena desires the reputation of having the Raymond within her borders, it is thought the "enterprising citizens" will cheerfully accept the situation. L. E.

This is the first money that has come into the hands of the District Attorney for timber trespass.

LA PRESA!

The Beautiful Swiss Village on Lake Como
BEING REPRODUCED IN SAN DIEGO.

The most novel thing yet undertaken in the development of this southern country is now being done at LA PRESA, nine miles from San Diego. The plan is to reproduce in that delightful spot the counterpart of the celebrated Swiss village on Lake Como, in Northern Italy. To this end a railroad is being built to the place, and a fine modern hotel is to be erected at once. The situation is most delightful; far enough removed from the sea to escape rough winds, yet near enough to be always cool. With pure water, fine scenery, and the best of soil, LA PRESA is just the place to invest for a quick turn with big profits. HERR MOST was arrested yesterday.

THE argument on the Morrow application for a change of venue was concluded yesterday.

THE son of an English earl has been jailed in Memphis, Tenn., for picking pockets. Blood will tell.

IN his letter to ex-Commissioner Sparks, Cleveland's "inocuous desuetude" is most painfully apparent.

THE Santa Ana Blade wants to divide, wants a fair show, and threatens to join San Diego. The Blade is "a amoozin' little cuss."

THE Royal Clyde Yacht Club has withdrawn its challenge to compete for the America's cup. They're nettled still over the Thistle.

NATURE appears to be getting ready for her winter dampness. A good rousing rain would make things hum all through these parts. Let the clouds gather!

SENATOR CULLOM says he will make a fight this winter for a Governmental telegraph system. It is to be hoped that his column of success may be as towering and as straight as Cleopatra's Needle.

THE doctrines of Henry George are becoming very popular among the working classes of England. They are all "fornist" being poor, and if it be possible to howl themselves into a condition of ease and plenty they stand as ready for it as their brethren in America.

THE Prohibitionists cast 40,000 votes at the late election in New York; a gain of about 15,000 in five years. Since the entire vote of the State of New York is 1,171,263, requiring 585,632 for a majority, the Prohibition millennium is still a thing of magnificent distance.

FOUR Territories—Washington, Dakota, Montana and New Mexico—will knock at the door of Congress this winter, demanding to be invested with Statehood. As none of them can be considered sound on the Democratic goose, the chances for admission might be described as—slim. The application is likely to be met by the doleful refrain: "Stop dat knocking at de doah."

SENECA AUGUSTUS SWALM sizes up well as a business lover. He was known here as an impecunious dude. His alleged illicit courtship, however, though of short duration, panned him out something like $30,000. "There is a tide in the affairs of men which, taken at the flood"—you know the rest. There is a tide in the affairs of woman, too, which, if taken at the ebb, leads—God knows where.

COL. VALENTINE BAKER—Baker Pasha—is dead. Baker will be remembered as the man who was deservedly dismissed from the military service of England for having brutally outraged a young girl who happened to be locked up with him in one of the compartment of an English train. Baker was a gallant soldier. He left his native land and entered the Turkish army, where he rose to the position of pasha.

GEN. GORDON, with his rant about State sovereignty and his miserable rot about the nobility and patriotism of Jeff Davis, has been a pretty bitter pill for the loyal Democrats of Ohio to swallow. Continue this treatment, and it will not be long before the demoralization of the Democratic party will be complete. The loyal democrats of the North can never be led to make a hero of Jeff Davis, nor to go clean back upon the principles for which they fought, during the four long bloody years of the rebellion. It is in vain for the South to ignore its treason, or seek to blot out from the memory of the Nation the fact of its crime. The only atonement it can make for the guilt of that irrevocable past is the acknowledgment of its wrong and whole-souled devotion to the Union for the future.

The Speakership.

The Speakership is just now attracting more than ordinary attention.

It is confidently predicted that there will be no contest, but that Carlisle will be elected on the first ballot.

There are several reasons which, to a man up a tree, would make it appear that to preserve even the semblance of common decency—if politics has any knowledge of that condiment—Carlisle should not be even mentioned as a candidate, much less railroaded through on the hump of a Democratic majority.

First among those reasons stands out the fact, as bold and prominent as Carlisle's nose, that his right to occupy the floor of the House, even as a sitting member, is called in question and must be adjudicated by the very majority who propose to railroad him into the Speaker's chair.

Next in the order of reasons apparent to the man up a tree is the fact that, should the Democratic majority do as they propose, they will have passed pre-judgment, not only on Carlisle's case, but upon the whole subject matter of contest.

They will have declared in a whisper loud enough to be heard from Plymouth Rock to Point Loma that no Democrat shall be unseated.

There was a time when the Democracy was led by men of chivalrous feeling and honorable instincts; but, with the foregoing programme carried out, the time will have arrived when the following epitaph might be chalked on the banner of Kentucky:

This was once a righteous rag—
It flashed in many a whoop-up;
But we've swap'd it for a windy bag,
And the chances of a scoop-up.

Democratic Teachings.

The lessons taught by the war are fast being forgotten by the people of the South. The triumph of Union principles has not proved sufficient to accomplish the regeneration of the Southern Democrat. Among the late utterances of Southern chivalry is that of the Zanzoo (Miss.) City Herald, which says: "Democracy means obedience to the will of the white voters of Mississippi;" and the Vicksburg Herald goes farther in its utterances when it proclaims, "The truth is, the white people will not submit to negro leaders. *Rather than do it they will kill them.*"

Since the devotion openly displayed by Jefferson Davis at Macon for the rebel flag, the spirit of the old rebellion has been breaking out daily more openly and more defiantly. Under the surface of a professedly reconstructed South, the fires of treason are still burning in many breasts. The old southern leaders are not repentant. So far as they dare to be, they are still defiant.

The Greenville (S. C.) News asserts that "the prominent men who promise to be most honored in the future are those who were defeated. Lee and Jackson already begin to stand above all their rivals in the estimation of the world, both in personal character and military achievement. Mr. Davis commands among his people reverence and affection such as is not given by the North to any of those who led in the great struggle."

And it is with those giving utterance to such sentiments that the Democratic party of the North consorts for the sake of power. It is with the solid South that it affiliates, even while it gives utterance to the same old rebel yell that filled our ears during the War of the Rebellion. A man is judged by his friends, and the same judgment is safe when applied to party.

Our Boom.

Boston is rejoicing that it "has not any unhealthy booms which are certain to result in unhealthy collapse after awhile," and that it "is undisturbed by speculative excitements." This sounds very well, but there is a good deal of the sour-grape philosophy in it all. The best "booms" of the country are in this direction just at present, and the symptoms of collapse are nowhere visible. There are many towns at the East where a general feeling of uneasiness exists over the depopulating tendency which the growing interest in California is producing in that section of the country. The craze is general. To gather enough together to take him and his family to this State is the aim of many a poor man. To make his home here under clearer skies and in our more equable climate is the determination of thousands of well-to-do and wealthy persons in almost every State to the eastward of California. As a result of this, there are many places where the population is actually decreasing, and where it is difficult to dispose of really valuable farms and other property at any rate approximating toward their actual value. But people are determined to come to Southern California even at a large sacrifice. They feel that the physical comfort which is to be enjoyed here is greater than money considerations, and so they are bound to come whatever the hindrance. And this exodus from the East is destined to continue until not only Southern California, but the whole State becomes populous. The charms of our climate are irresistible. The State has entered upon a career of prosperity and growth that cannot but be continuous. Men are as eager to come to California as men were in the height of Roman power to see Rome, the mistress of the world.

The business American is utilitarian in sentiment, but what little romance there is in him has come to center about the Golden State. Its orange groves and vineyards; its cloudless skies; its great harvests; its wonderful soil; its perpetual summers and its marvelous climate have for him an irresistible attraction, and just so long as there is room he is coming to share the good which this State has to offer.

We are not afraid of "booms." They do not collapse in this climate, but terminate in a well-established and healthy growth. Los Angeles has had hers for five or six years, and the youngling is still healthy and waxing bigger with every passing week. A place that sees 5000 new-comers set down in its midst every seven days don't indulge in many fears of a collapse.

Let quiet, staid old Boston still dream that she is the "hub of the universe," and not borrow any trouble about collapsing booms in this direction. They are not down on our programme.

THE anarchist funeral demonstration seems to have been an immense affair. One hundred thousand foreigners viewed the pageant, and now a good many worthy people are scratching their heads and seriously pondering the epluribus bandana declaration that this is the home of the oppressed of all nations, and a camp of instruction for the riff-raff of the universe.

SPEAKING of the San Pedro trouble, the San Francisco Post has the following:

"If the facts as stated are true, the Seamen's Union and their sympathizers at San Pedro are killing the goose that lays the golden egg. Shipowners will not send their vessels to ports where their crews are enticed or beaten into leaving the ships, and where they are denied protection by the authorities."

THE "Providencia Times" is another new candidate for public favor. It is a seven-column weekly, published at Providencia, in this county, by R. A. Marshell, a veteran typo. It would be well, however, for the Times to knock out the stereotyped ad of the Manchester colony gang.

IT is something of a mystery to us why the question of county division is not agitated more than it is.—[Santa Ana Blade.

The Blade seems to be a sort of journalistic weeping willow. It is forever in a state of sorrow or mystery.

MEN OF THE STATE.

State Printer J. D. Young was in San Francisco on the 16th.

Judge Rearden of the Supreme Court is still confined to his rooms.

G. B. Sperry of Sperry's mills, Stockton, was in San Francisco on the 16th.

A. S. Moore, a large real-estate operator of Santa Barbara, is in San Francisco.

H. B. Green of the Hotel del Coronado, San Diego, is at the Palace, San Francisco.

A rumor to the effect that Judge Rearden of the Supreme Bench was about to resign is denied.

Judge John Hunt, of Department 5, San Francisco, is confined to his residence by an attack of bronchitis.

Eugene J. Gregory, the progressive and popular young Mayor of Sacramento, is at the Grand, San Francisco.

W. H. Mills, land agent of the Central Pacific, is spending his vacation looking over the southern counties.

Judge Tuttle and his son of Oakland are counsel for Hobson in the libel suit against the Sacramento Bee at Auburn.

Ex-Railroad Commissioner W. W. Foote is counsel for the Examiner in the Morton libel suit now on trial at Suisun.

L. U. Shippee, one of the leading residents of San Joaquin Valley and Mayor-elect of Stockton, is at the Bay City.

Conductor Henry Hubbard, formerly of the Southern Pacific division, will resume his old route on the California Pacific.

W. J. Hunsaker, elected Mayor of San Diego on the Workingman's ticket, is a lawyer in good practice at the San Diego bar.

Isaac Upham, president of the Oakland Board of Education, has returned from an extended tour for business and recreation through the Eastern States.

AMUSEMENTS.

ALVIN JOSLIN.—There is hardly a man living who hasn't at some time or other enjoyed the quaint sayings and whole-souled wit of a "way back" country farmer. Such a one is the character of "Alvin Joslin," who entertained a full house at the Grand Opera-house last evening with his mirth-provoking absurdities. Mr. Davis, whose representation of an unsophisticated farmer is inimitable, is as fresh and bright as ever, seeming to improve with each successive season. The farm yard accessories are especially original, and the music, consisting of solos between the acts, is a very enjoyable feature. There is little to the play, which was written to give Mr. Davis full scope for his lifelike characterizations so well known to every one. The scenery is well set. The Brooklyn bridge and East River by moonlight are strikingly realistic. Mr. Davis will repeat *Alvin Joslin* for the remainder of the week.

AFTER DARK.—The children of the two orphan asylums will be given seats at the Pavilion matinée tomorrow. The Webster-Brady Dramatic Company continues to draw big houses.

A Creditable Recital.

The pupils of Mrs. H. C. Plimpton and Miss Carrie Wagner, assisted by the teachers themselves, gave a very creditable recital last evening at the Christian Church. Some twenty numbers, including solos and quartettes were cleverly rendered by the students, and the performances of the teachers themselves were admirably executed. The church was filled with the friends of the participants.

Has He Skipped?

On last Monday M. E. Chapin & Co. of Santa Monica sent John Courtwright, a teamster, to this city for a load of goods. The man partly loaded his wagon and both man and wagon disappeared, and have not been seen since. Mr. Chapin called at the police station at 12 o'clock last night and reported that he was unable to trace his man. He is of the opinion that he has skipped out.

How Mrs. McDonald's Infatuation for Swalm Led Her to Lavish Her Wealth Upon Him—Judge Maguire Coming Back to Retain His Seat.

By Telegraph to The Times.

SAN FRANCISCO, Nov. 17.—[Special.] The latest trick of the perverse Mongolian circumventing due process of law was today revealed to Judge Hornblower. Some days ago he convicted nine coolies of lottery playing, and fined them $50 or fifty days in the County Jail. Their counsel appealed the cases to the Superior Court, but that tribunal affirmed his decision. The precious nine, who were out on bail furnished by the wealthy Chinese companies that hire them to conduct the various lottery joints around the city, were accordingly brought into the Police Court to again be ordered to pay their fine or undergo imprisonment. That is, they were supposed to have been the same nine, but they were not. Those first arrested were too valuable to be thrust into cells, where they could no longer give their services to lottery organizations. So nine Mongolians were gathered from the alleyways of Chinatown and substituted for those first captured. They went to jail to serve the fifty days out. These prisoners are quite willing to subsist on the city's food, and are paid 25 cents per day by the "bosses" to stand the confinement in place of the lottery men. W.

CLARA AND SENECA.

How the Infatuated Woman Wasted Her Wealth on Swalm.

SAN FRANCISCO, Nov. 17.—[By the Associated Press.] The trunks of Seneca A. Swalm, which are now held by the property clerk at the old City Hall, were searched this afternoon, and a number of documents found, including a will of Clara Belle McDonald, in which she bequeathes all her property to her child, to be managed and controlled by Swalm, who is appointed executor until the child attains the age of 21. The will was dated August, 1887. Besides the will there was also a deed dated May, 1887, in which Mrs. McDonald conveyed to Swalm her cottage in El Dorado county, given her by her husband. Other documents were found which conveyed to Swalm a large amount of personal property.

Swalm was arraigned in the Police Court this morning on the charge of grand larceny, preferred by R. H. McDonald, Jr., who accuses him of stealing his wife's jewelry.

Mrs. McDonald was removed from the City Prison to the County Jail this morning.

BENHAYON'S DEATH.

Close of the Testimony at the Coroner's Inquest.

SAN FRANCISCO, Nov. 17.—[By the Associated Press.] The Benhayon inquest was resumed this afternoon. A smaller number of persons than usual were present, and the interest which the case excited several weeks ago is apparently dying out. Mrs. Dimmig repeated her testimony in regard to her husband coming home about midnight on the night of Benhayon's death.

Dr. Lord testified that he had known Benhayon a number of years, and the only peculiarity he had ever noticed in him was that he always became very much excited whenever Mrs. Bowers' death was mentioned.

Expert Hyde was called and repeated his opinion that the alleged "confession" and other letters found in the room with Benhayon's body were genuine.

Expert Gumpel was recalled and repeated his opinion that the letters were forgeries.

Several other witnesses were examined, but no new facts were developed.

Coroner Stanton stated that he had no more testimony to offer and the jurors agreed to meet tomorrow evening to deliberate.

SACRAMENTO.

Dimmig Asks a Writ of Habeas Corpus—Some New Doctors.

SACRAMENTO, Nov. 17.—[By the Associated Press.] An application for a writ of habeas corpus on behalf of John A. Dimmig, charged with the murder of Henry Benhayon, was presented to Chief Justice Searles this afternoon by John Darcy, one of Dimmig's attorneys.

The writ is asked for on the ground that Judge Hornblower, who issued the warrant charging Dimmig with murder, had no jurisdiction, because he did not examine any witnesses on behalf of the prosecution. The complaint on which the warrant was issued was made on information and belief only, which is insufficient. Assistant District Attorney Kirk, who is here to attend the Goldenson case, will oppose the application tomorrow.

QUICKER TIME TO NEW YORK.

Beginning tomorrow, the east-bound train leaving at 7:30 a.m. will become a mixed train, the Southern Pacific Company having concluded to abandon the emigrant-express idea and to run first-class cars on the fast train. JACK'S WAGES TO BE CUT.

Coasting sailors are again uneasy, for it is reported that the Shipowners' Association is about to make another cut of $5 in wages. The standard is $45 to outside ports, $40 to bar harbors and $35 to islands. A reduction of $5 will make wages exactly what the Coast Seaman's Union fought so bitterly for a short time ago. The next vessel that signs a crew for Puget Sound will pay $35.

By Telegraph to The Times.

SAN DIEGO, Nov. 17.—[Special.] This is a red-letter day in the history of the city, the Coronado and San Diego Water Company having struck artesian water at Oldtown, about four miles north. The water is pure and soft, of fine quality, and flows steadily through an eight-inch pipe at the rate of 400,000 gallons every twenty-four hours. The citizens are jubilant over the event. A daily paper says editorially: "The Mayor of the city of San Diego should declare a general holiday in honor of the first successful artesian well in the city. Four hundred thousand gallons daily of pure water from one artesian well is enough glory for one day."

No Eight-Inch Walls.

The city is very anxious to get Los Angeles street extended through to the Plaza, and has secured the consent of all the property-owners except Mrs. Bigelow, who owns the corner of Nigger alley opposite the Plaza, in Chinatown, where the recent fire occurred. Mrs. Bigelow has commenced the erection of a brick building on the property, and an injunction was sued out by the city. This failed to hold, and yesterday Fire Marshal Strohm swore out a warrant charging her with a violation of the city ordinance which prohibits the erection of buildings with eight-inch walls. The Fire Marshal also stopped work on the building opposite the new Turnverein Hall, and will compel the owner to put up twelve-inch walls. The Fire Marshal is determined to see that the ordinance is observed, and that no eight-inch walls are allowed within the fire limits.

State Convention of the United Labor Party of Missouri—The National Grangers in Session—Programme of Work for the Fishery Commission.

By Telegraph to The Times.

WASHINGTON, Nov. 17.—[By the Associated Press.] Some confusion exists as to the functions of the Fisheries Commission which is about to meet here. The present commission comes together with no other power than that of free conference upon the question, which has practically been an open one as long as this country has had existence. Briefly stated, it has been from the beginning the claim of the United States that whatever privileges the treaties with Great Britain recognized as due to Americans, were original rights, and were not in any sense grants or concessions for which something could be demanded in return. In other words, when the territory once under the control of Great Britain was divided the partition related to the land alone, rights upon the water remaining common to both nations. This the Britons have always denied. Treaties and arrangements heretofore have been makeshifts, securing recognition of our rights in one way or another, but merely for the time being, while postponing the main question indefinitely.

The present commission may arrive at an interpretation of the existing treaties exactly defining the rights of Americans; or, finding that impossible, it may agree upon some modifications to be recommended to the treaty-making branch of the two governments. In either of which cases the commission will have accomplished the purpose of its creation. The commission cannot deal, under its present powers, with the question of a commercial union with Canada, though it is not impossible that the subject may be referred to it by the two governments before its labors are ended.

WASHINGTON, Nov. 17.—Joseph Chamberlain and Sir Charles Tupper, who, with Minister West constitute the commission on the part of Great Britain to endeavor to secure a settlement of the vexed fisheries question, arrived in the city with other attachés of their party this afternoon.

Nash, general superintendent of railway mail service, shows that during the fiscal year, ended June 30, 1887, mail service has been authorized upon 181,059 miles of railroad, postal clerks being employed distributing the mail on 166,699 miles, the service on the remaining 14,360 being performed by closed pouches. At the same date there were in operation 41 inland steamboat routes, aggregating 5864 miles, on which postal clerks were employed. To handle the mails while in transit there were employed on railroad routes 4403, and on steamboat routes 57 railway postal clerks. During the year 7213 miles of new railroad service has been added. The lines on which service was performed by clerks show an increase of 5936 miles of lines supplied by closed pouches, an increase of 8.30 per cent. The inland steamboat routes decreased from 43 to 41, and in length of routes from 5951.53 miles to 5864.89. In 1886 there were handled by clerks in the railway mail service of letters, ordinary mail matter, registered packages through registered pouches, and inner registered sacks, 5,545,846,044; in 1887; 5,851,394,057, being an increase of 505,548,013 pieces. During the year, 1,754,617 errors in distribution were found, making one error for each 373 pieces handled. CLEVELAND'S LETTER.

How the President Let Sparks Down Gracefully.

WASHINGTON, Nov. 17.—[By the Associated Press.] The following is the President's letter to Commissioner Sparks:

"EXECUTIVE MANSION,
"WASHINGTON, Nov. 15, 1887.

"*William J. Sparks*—DEAR SIR: I have read your letter of resignation left with me today, and also the communication addressed by you to the Secretary of the Interior, accompanying the same, in the present situation. I do not feel called upon to determine the merits of the controversy which has arisen between the Secretary and yourself, further than to say that my impressions touching the legal questions involved incline to reply, as I naturally would do, even if I had not an impression of my own upon the judgment of the Secretary that it presents a case of interpretation where two perfectly honest men may well differ. The operations of the land department, and your zealous endeavor to save and protect the public lands for settlers in good faith, induce me to believe that you will be pleased to receive assurance that this policy, upon which all are agreed, will continue to be steadfastly pursued, limited and controlled, however, by law and the judgments of the courts, by which we may at times be unwillingly restrained, but which we cannot and ought not to resist. I desire to heartily acknowledge the value of your services in the improved administration of the land department which has been reached, and to assure you of my appreciation of the rugged and unsullied integrity which characterized your official conduct. I am constrained to accept the resignation you tender, with assurances of my continued kindly feeling toward you, and with the earnest wish that wherever the future way of life may lead, complete success and satisfaction may await you. Thanking you for the pleasing and complimentary expressions with which you close your letter, I am yours, very truly,

"GROVER CLEVELAND."

As compared with the previous year, the receipts increased $34,963,559; expenditures, $25,449,041, and the surplus revenues $9,514,509. There was an increase in every item of revenue, the largest being in the receipts from customs. The largest increase in expenditures was on account of Indians and pensions, and the largest decrease was on account of interest on the public debt. The receipts of the Postoffice Department amounted to $53,752,347, and the expenditures to $53,583,835.

Under the provisions of the act of June 8, 1872, certificates of deposit amounting to $34,900,000 were issued during the fiscal year for United States notes lodged in the Treasury. Redemptions in the same period were $43,990,000. There remained outstanding June 30th only $9,020,000, which is the least amount shown at the end of any fiscal year since the issue began. New York Police Arrest the Anarchist Leader—Indications That He Will Spend a Year in Prison.

By Telegraph to The Times.

NEW YORK, Nov. 17.—[By the Associated Press.] Herr Most has been arrested and taken to police headquarters. The arrest was made on account of his language at the Anarchist meeting Saturday night. The arrest of the Anarchist took place in the office of his newspaper by two officers of Inspector Byrnes's staff. He was taken directly to police headquarters and locked up in one of the cells in the basement. The arrest was made by direction of Inspector Byrnes. A warrant was issued by Justice Cowing to-day for having made an incendiary speech calculated to incite a riot.

HOW MOST WAS WATCHED.

As early as last Wednesday Supt. Murray intimated to his captains that they should take particular pains in watching the movements of Anarchists in this city, especially during the excitement attending the hanging of the Anarchists in Chicago on Friday and the funeral on Sunday. On Thursday night occurred the parade of Reds, and all the reserves were on duty. Late that night Supt. Murray issued special orders to the captains to follow the movements of all the Anarchists, and report to him any meeting they were likely to hold. On Saturday night Johann Most, with his companion, Lena Fisher, was attending an Anarchist meeting in Seventh street. After the audience got well warmed up, Most himself made a speech, which was particularly blood-curdling in character. Unfortunately for Most, Policeman Serchs of the Fourteenth precinct was there, in civilian's dress taking notes. These memoranda were brought out to Supt. Murray and laid before him, and on Monday search was begun for the Anarchist and he was

NOT TO BE FOUND.

There was every reason to believe that he had left the jurisdiction of the State and was in hiding somewhere. Then the shrewdness of Inspector Byrnes came into play. He knew that if he made public the quandary of the police Most would naturally hear of it, and would stay out of the city indefinitely. So he kept quiet, and allowed the excitement to die out. Most thought the trouble gone by, and yesterday he came back to the city and went to work with his paper.

HIS SECOND OFFENSE.

Byrnes was informed of this, and, early this morning, he went before the District Attorney and presented the evidence he had obtained against Most and his incendiarism, and asked the Grand Jury to find an indictment against him. The Inspector and seven witnesses gave evidence, and an indictment was found. Meanwhile Most had been arrested. Most insists that he did not use the language attributed to him by the police. This is the second time he has been arrested for making violent speeches. He will probably get the full extent of the law, which is one year's imprisonment and a fine.

MEMPHIS, Nov. 17.—[By the Associated Press.] The most disastrous fire that ever visited this city occurred tonight, and resulted in the complete destruction of 13,200 bales of cotton, compresses Nos. 4 and 5 of the Merchant's Cotton Compress and Storage Company, and forty cars belonging to the Chesapeake and Ohio and Southwestern Railroad. The cotton destroyed was principally for export. It was valued at $630,000. The insurance cannot be ascertained tonight. The amount of insurance in all probability will not exceed 60 per cent. of the loss. The presses and buildings of the Cotton-press Company were valued at $135,000, which were also partially insured.

A resolution to petition Congress to abolish all internal tax on tobacco was adopted after a hot debate.

The National League in Session—The Brotherhood Question.

NEW YORK, Nov. 17.—[By the Associated Press.] The National League was in secret session all day long. President Young tonight announces the following results of the session: Section 61 is amended as follows: Each club shall have exclusive control of its own grounds, but a home club shall pay the visiting club for each championship game played on said grounds 25 per cent. of the receipts for general admission; provided, however, that when such per cent. shall be less than $150, the home club shall pay the visiting club that sum.

N. E. Young was elected president, W. A. Nimmick of Pittsburg, E. K. Stearnes of Detroit, A. H. Snowden of Boston and W. F. Hewitt of Washington, directors.

A resolution introduced by Mr. Spaulding of Chicago was adopted, as follows:

Mr. Billings of Boston offered Mr. Stearns $13,000 for Richardson and Thompson today, but was told that $20,000 would not buy them.

During the afternoon a notice was sent to President Ward of the Brotherhood that the League would meet him and his associates this evening. A question was made whether the Brotherhood would interfere with the reserve rule or salary contract, and what modification was asked for. Phillips, pastor of the East Los Angeles Congregational Church. But for him I might have died without ever having had an opportunity of either hearing or reading one single practical common sense and matter of fact sermon. He seems to have laid his axe to the root of old post-auger orthodoxy, and is now preaching the more rational and practical religion of humanity; and, notwithstanding I am an infidel, I can indorse every word of his sermon and bid him godspeed. But inasmuch as I am an old man, I hope he will excuse me for using what is generally conceded to be an old man's privilege, that is, to remind him that it was for just such preaching as his that Jesus was crucified, and perhaps he had better go slow, for it is written that all sin and blasphemy against the Father and Son may be forgiven, but in these days whosoever sinneth against the Almighty Dollar is not easily forgiven.

OCTOGENARIAN.

So Much Water for So Much Land.

LOS ANGELES, Nov. 17.—[To the Editor of THE TIMES.] Your fearlessness in denouncing frauds leads me to make some comments on the letter of "Old Settler" in your issue of Sunday last. This country has enough real merits to entice the immigrant, without indulging in lying and deception. "Old Settler" refers to the fact that some large tracts of land are being sold to the newcomers, with the promise of a share of water to each acre of land.

This share of water could easily be measured in a quart cup, but the eastern man, knowing nothing of the quantity of water necessary to irrigate an acre of land, buys the land and takes his chances on the water. Take your map and look along the line of railroad from this city to San Bernardino, and you will find lands offered in this way.

We cannot afford to tarnish the reputation of Southern California by such frauds. Let every new man refuse to buy farming lands without a definite and ample quantity of water to each acre. VETO.

The Fifteenth Man.

COVINA, Nov. 13.—[To the Editor of THE TIMES.] I see in the WEEKLY MIRROR of yesterday an article on the election of a Board of Freeholders for framing a charter for Los Angeles. Now, I am out in the country and perhaps it is none of my business, but I take an interest in the welfare of our southern metropolis. I indorse the views set forth in that article on the choosing of seven Republicans and seven Democrats and the choosing of the fifteenth by these fourteen, and I would beg to suggest that a Prohibitionist be given the fifteenth place. You may think this a rather bold and cheeky suggestion, but is it more than fair? A large number of your best citizens are third party men, and that class should have some recognition in the important matter of making a charter under which they must live. Such men as Jesse Yarnell, Rev. Mr. Hough, J. H. Blanchard, Will D. Gould, E. K. Green and many others, are perfectly capable of helping in this important work. I hope you will at least give me a hearing, and that the Republican and Democratic committees will give it consideration. JACK.

A Moonshiner's Still.

[Atlanta Constitution.]

"Over in Chambers county, Ala., right near the Troup county line, I found on Sunday the queerest distillery I ever saw." So said Revenue Agent Willborn Colquitt yesterday. "I was with Deputy Marshal Jule Johnson and Deputy Marshal Eichelberger of Alabama. The owner of the still had made a boiler by splitting a poplar, probably two and a half feet in diameter, hollowing it out and lining it with copper. Three barrels were used as stills, and these were so arranged that there was double distillation. The worm was a long tin pipe with an elbow at each end. The distillery would doubtless make thirty gallons of liquor a day. We caught two negroes, but couldn't find the owner of the still."

Wild Oats.

[Peoria Transcript.]

"George," whispered a Munson-street maiden, "you do not seem to dote on me so wildly as you did some time ago. Have you ceased to love me?"

"No, darling. We are soon to be married, and I consider it necessary to sow my wild dotes."

Old World News—The German Crown Prince's Condition Becomes More Alarming—Death of Baker Pasha—Grevy Declares That He Will Not Resign.

By Telegraph to The Times.

SAN FRANCISCO, Nov. 17.—[By the Associated Press.] The steamer Belgic, which arrived today, brought advices respecting the opening of the Hawaiian Legislature, when King Kalakaua made a brief address. He referred to needed reforms, and concluded his address as follows: "I take great pleasure in informing you that the treaty of reciprocity with the United States of America has been definitely extended for seven years, upon the same terms as those in the original treaty, with the exception of a clause granting to National vessels of the United States the exclusive privilege of entering Pearl River Harbor, and establishing there a coaling and repair station."

FROM THE ORIENT.

The Chinese Government Rejects the Mitkiewicz's Contracts--Notes.

SAN FRANCISCO, Nov. 17.—[By the Associated Press.] The Oriental and Occidental steamer Belgic, arrived from Hong-Kong and Yokahoma today. Advices from Hong-Kong state that the Tsung-Le-Yamen, which has, practically, supreme power in all matters of foreign policy, has canceled all contracts made by Viceroy Ti-Hung-Chang with the American syndicate, which was represented by Count Mitkiewicz, relative to the American Bank concessions.

FRIGHTFUL DISASTER.

Particulars are received by steamer of a disaster which took place on board the Tonkir, a small river steamer at Haiphong, China, on the 12th of October. Kin Sang, the own of the vessel, with a party of about sixty, were preparing to make a trial trip on the river. The Chinese engineer reported difficulty in raising steam to the required pressure and Sang went below to inspect the machinery. A loud report was subsequently heard and fifteen or sixteen of the party were seen struggling in the water, the remainder having disappeared beneath the water unseen. Ten bodies were recovered thirty-six hours after the catastrophe. The dead numbered between thirty and forty, while the remaining twenty were more or less injured.

COSTLY NUPTIALS.

The Shanghai Courier says that the Chinese officials have reported to the Empress Dowager that an amount equal to $12,750,000 will be required for the young Emperor's marriage. An edict has been issued to raise this amount.

NOTES FROM ABROAD.

Serious Symptoms in the German Crown Prince's Case.

LONDON, Nov. 17.—[By Cable and Associated Press.] Dispatches received today from San Remo say that there has been a discharge of green matter from the Crown Prince's throat which proves to be cancerous. In view of this fact the case is considered much worse, as this kind of cancer is of a most malignant type, and is regarded as incurable. The German doctors' reports are trying to deny the serious development.

LONDON, Nov. 11.—The Empress of Germany is suffering from paralysis of the lower jaw and has been much affected by the condition of the Crown Prince.

WILSON TO BE PROSECUTED.

PARIS, Nov. 17.—The committee of Deputies to whom the subject of the Wilson trial was referred decided that Wilson should be prosecuted. The decision was telegraphed to Wilson, and he was informed that before the proceedings were begun he would be given an opportunity to be heard. He replied that no statement would be made before the trial.

COLD GALL.

How an Intended Feast Turned on the Proposed Eaters.

"The gall of an army mule" has become a classic proverb, and was supposed to burrow down to the very bed-rock of superlativeness. The long-quoted a. m., however, will have to take a back seat, and hide his diminished head. He is the blushing incarnation of modesty as compared with the diminutive but diabolic guinea-pig. A member of the TIMES staff got a couple of rattlesnakes a few days ago, to bring up by hand. They were both large and athletic; one sporting eight rattles and the other eleven. The former owner said he hadn't fed them for about a year; and their new master thought they might be getting a little hungry. Having made several vain endeavors to catch mice for them, he went down to the Mott market and bought the smallest guinea-pig that was on tap there. It was a wee little wretch, no bigger than a young rat, but with a colossal development of cheek. He took it home and set it down on his desk awhile. It amused itself by eating half a photograph and a generous lunch of whisk broom. When it was gently dumped into the box in which the rattlers reside, it began to make itself at home at once. Instead of cowering in a corner, or being "charmed," it began to investigate its new chums in the most nonchalant way, pattering over their gliding bodies as coolly as if they had been straws. When the irritated reptiles would coil, rattle and flop their long, forked tongues at the intruder, it would walk up and stick its inquisitive nose within an inch of the deadly fangs in a "wot-d'yer-soy" sort of way, and the serpents, astonished, actually refused to strike. The owner was busy in another part of the room, when the guinea-pig had been in the cage a couple of hours, and a tremendous rattling called him to the spot. Both snakes were greatly excited, and were crawling away from their tiny cage-mate, who had evidently been abusing them. The gally little wretch had actually gnawed off over half the rattles from the smaller snake—which had, however, the handsomest string—leaving only a dilapidated stub. He was cool as a cucumber about it, too. Despite this indignity, the snakes had not bitten him, and he would be alive and gnawing now, had he not been killed in taking him out of the cage.

Does He Enjoy It?

[Philadelphia Call.]

There is a rumor to the effect that Jay Gould has gone abroad for fear of the Anarchists, who threaten to kill him as a representative of the money power. There is no truth in the rumor, of course, and anybody who thinks that Jay Gould is at all afraid of being killed does not know the man. He is physically small, but his coolness and courage are colossal. But the readiness with which the story is believed shows what a place Jay Gould has in the minds of his countrymen.

Condensed Truth.

It is not always the man who makes the most fuss that does the greatest amount of work. The fast-ticking clock tells of no more hours in a day than the old-fashioned, slow-voiced time-piece standing in your grandfather's hall.

CONSUMPTION CAN BE CURED.

This has been demonstrated in thousands of cases treated by

DR. WILLIAMS,

With his new system of Medicated Inhalations combined with proper constitutional remedies for the liver, stomach, blood, etc.

Probably no system of practice ever adopted has been so universally successful as that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

Inhalations are applicable in all diseases of the respiratory organs, but must be prepared for each individual case as they severally require.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success.

The very best references from those already cured.

WHAT SHALL WE GIVE MOTHER AND FATHER FOR A CHRISTmas present? This question will soon be heard everywhere, and if we may assist the kind reader we suggest a pair of GOLD SPECTACLES, which will please and give comfort. Superintendent Hoitt.

Ira G. Hoitt, State Superintendent of Public Instruction, came in Wednesday from the Kern County Teachers' Convention. Wednesday he made a very thorough examination of the Normal School here. Yesterday he visited the Spring-street School, the Los Angeles Orphan Asylum and the Orphans' Home. At noon yesterday he returned to Sacramento. He was favorably impressed by what he saw here. An obscure sheet referred to him yesterday as ex-Superintendent.

Gen. John R. Brierly wrote recently to Mr. Hoitt to see if the State Board of Examiners cannot buy our school bonds. Upon inquiry Mr. Hoitt found that that board is empowered to buy only county and State bonds, and cannot purchase city bonds. He then went to the regents of the State University and learned that while they have the power to buy the bonds, they have no money.

N. F. COOKE, M.D.,
Professor of theory and practice, Hahnemann Medical College.

I hereby certify that I have examined a work entitled "Our Family Physician," and find it to be correct in its diagnosis, and, in my opinion, worthy of the confidence of the public.

H. S. HANN, M.D.

I have examined the advance sheets of "Our Family Physician." It gives a pleasure to recommend the work as correct in its mode of treatment of diseases, and it deserves wide circulation.

J. P. COOKE, M.D.,
Professor in Burnett's Medical College, Chicago.

After examining the publication "Our Family Physician," I can fully indorse the opinions expressed of its merits by the above gentlemen.

R. A. GUNN, M.D.,
Professor of the Burnett Medical College.

The book contains a valuable chapter of symptoms, which will aid wonderfully in diagnosing diseases, and the proper remedies are given for Allopathic, Homeopathic, Eclectic, Hydropathic and Herbal.

THE BEST PREMIUM OFFERED

By any Paper in the United States.

This book contains 544 pages; is eight and one-half inches long, six inches wide and two inches thick. It is printed on extra heavy paper and is handsomely bound, with embossed cover and gilt-lettered back.

IT IS DIFFERENT FROM ALL OTHER WORKS OF THE KIND EVER PUBLISHED.

FIRST—It teaches those who have it how to tell what the matter is when some one gets sick. All similar books tell what to do—if you know what the disease is. THIS BOOK TELLS YOU HOW TO RECOGNIZE THE DISEASE, and then what to do for it. No other book published does this.

SECOND—When a person is really attacked by a dangerous disease, it enables you to know the fact, and in such cases its advice is, "Send for a competent physician at once." In all ordinary cases, such as can be cured without a doctor (and most of the ailments in a family are of this kind, if only you could recognize them), it gives full directions for treatment. The point is, that it teaches you the difference between a dangerous and a trifling disease and tells you when it is necessary and when it is not necessary to call a physician. No other book published does this.

THIRD—It gives separately, and for each disease, the methods used by each of the different "schools of medicine," and in all cases the prescriptions are made by the most eminent men in their respective mode of practice. This makes the work specially suited to the needs of every family, no matter what school of medicine they prefer—the Allopathic, Homeopathic, Hydropathic, Eclectic or Herbal. NO OTHER BOOK PUBLISHED DOES THIS.

WE WILL SHOW YOU HOW IT DOES THIS

If you will call and see us.

Every family should have a guide to health to assist the family doctor. not intended to take the place of the doctor in every instance, but to help you do everything possible in his absence.

—:TO OUR OLD SUBSCRIBERS:—

It is customary with newspapers to give premiums to new subscribers only; but the publishers of the MIRROR mean to reverse this old rule; they intend to do as well, at least, by their old subscribers—those who have stood by the paper in years past, and paid their money for it "right straight along." We propose to show our appreciation of these friends in a substantial manner; and as the premium to be offered is expensive, and as our express object in offering it is to increase our list of subscribers, we will require every old subscriber who may renew his subscription, in order to receive the valuable premium, to bring in AT LEAST ONE NEW SUBSCRIBER, to whom the premium will be given, as well as to the old subscriber.

NEW YORK, Nov. 17.—The stock market was again strong this morning, but yielded later in the day, and the early advance was completely wiped out. There was a disposition to sell on the part of foreigners at the opening, but the list received good support from the bulls, and buying from domestic sources turned the tide once more, and higher prices than those before were reached, and realization of profits assumed greater proportions in the afternoon, and the demand falling off, the entire market declined. Reading and Hocking Coal being the weakest on the list. Almost anything is lower tonight, the advances being very few, though the declines are for fractions only, except for Reading and Hocking Coal, which lost 1½ each. Burlington and Quincy rose 2 per cent.

An Opportunity Seldom Offered.

The Santa Fe Railroad Company are largely interested in the new town of Santa Fe Springs, at Fulton Wells. Consequently, all the projected improvements will be rapidly pushed until completed. This is the only resort within seventy miles of Los Angeles where first-class medicinal springs are found. It will, therefore, always be filled with health-seekers. The enterprising firm of Byram & Poindexter have secured 200 acres immediately adjoining the best side of this town of Santa Fe Springs, and will sell no town lots at all. They offer it only in blocks of from four to ten acres, at low acre prices, on easy terms. This gives buyers an opportunity to make handsome little homes or small farms, just beside a railroad depot, handsome new hotel and other extensive improvements. Any purchaser of his property can double his money by subdividing into lots. Call on us for maps and further particulars. Byram & Poindexter, 27 First street, Los Angeles.

SMELLS TO HEAVEN.

A FEARFUL NUISANCE OFFICIALLY MAINTAINED.

The County Hospital Sewage Poisoning the Surrounding Country, and No Remedies Applied—A Disgusting State of Things.

For a long time past, residents in the vicinity of the County Hospital have been complaining about the wretched sanitary arrangements of that institution, by which it was claimed a nuisance was created and maintained. These complaints have recently become so numerous and persistent that a TIMES reporter was yesterday detailed to investigate the matter. The reporter drove out to the hospital about 1 o'clock, but did not meet the physician in charge, Dr. A. M. Schultz, who had just left for the city. The head nurse, C. J. Dunaway, however, showed the TIMES man through the various wards, and gave all the desired information. The hospital, though somewhat crowded, is well kept, and everything about the building was neat and clean. There are now about 140 patients receiving attention, eighteen of whom are women. All seemed to be well satisfied, and those questioned had no fault to find. About half the inmates are paupers, and these will be removed as soon as the poorhouse is built—which will be within a few months—and this will relieve the pressure upon the hospital, which only has accommodations all told for about 160 persons. After looking through the building, and seeing nothing objectionable, the reporter asked about the sewerage arrangements, and was shown to the rear of the building. Here, the source of the whole trouble was found, and it is not putting it too strong to say that a condition of things was found that is a disgrace to a civilized community. Less than 50 feet from the hospital building is an open cesspool, 12 feet deep by 16 feet square, into which is collected the sewage of the entire building. The stench from this sink of corruption was fearful, and when it is stated that the sewage from a hospital of 150 patients is equal to that of an ordinary village of 500 or 600 people, some idea can be formed of what it is like. The only outlet for this cesspool is an open trench about a foot wide, through which a small stream runs during the day, of course at night there is no flood, and the result is a stagnant pool of sewage large enough to pollute the atmosphere for miles in every direction. There is also a stagnant stream covered with green slime, all along the ravine until it empties into the river, carrying disease and death along its entire length. As before remarked, the stench was fearful, and at night it is said to be so bad that residents in the neighborhood have to close all their doors and windows. In addition to this open sink, the whole backyard of the hospital grounds is honeycombed with cesspools that have been filled and then covered with earth, and the outside closet is simply a pit dug in the ground, which in the course of a few months will fill up, when a new one will probably be made. There is no provision whatever even for flushing the trench. Besides endangering the lives and health of the residents of the vicinity, this trench—it cannot be called a sewer—absolutely destroys a large territory, so far as building is concerned, for no one cares to live on the banks of a disease breeding stream, and there are not more than half a dozen houses for a full quarter of a mile. The matter has been repeatedly brought to the attention of the Board of Supervisors, but so far no action has been taken to abate the nuisance so far as heard from. There is general and wide-spread indignation throughout the neighborhood, and it is more than probable that legal measures will be at once taken in the premises.

After leaving the hospital the reporter met a well-known citizen, a resident of the neighborhood, and asked him why such a nuisance had been so long tolerated. "We have done everything possible to have it abated," he replied. "The matter has been brought to the attention of the Board of Supervisors repeatedly. We have been put off by promises of speedy relief, and finally were told to put our grievances in writing and lay them before the board. This we have done, but so far nothing has been accomplished. I tell you it is fearful. We have to close our doors and windows after dark, and even then the stench is sickening. There have been numerous cases of typhoid fever, scarlet fever and diphtheria in this portion of the city, directly traceable to this nuisance, which is a disgrace to the city. It is no use for the Supervisors to try to dodge the responsibility for its existence, for they have been told often enough about it, individually and collectively. They have simply ignored us, and shown a criminal disregard for the health of a large portion of the city. Endurance has at last ceased to be a virtue, and we propose to go into the courts and see if the Supervisors are above the laws, and whether they can maintain a nuisance indefinitely for which a private individual would be at once indicted and prosecuted."

CARVER'S CASE.

A Wild but Vain Attempt to Scare Up Bondsmen.

The arrest and incarceration of L. H. Carver, the surveyor, in the County Jail, on the charge of embezzlement, the account of which was published exclusively in THE TIMES of yesterday morning, was the subject of considerable comment on the streets yesterday, and much interest was manifested in the case. Carver did not sleep any during the night, and attended Jailer Russell on his morning rounds, remarking that "he would like to see as much as possible of the jail while he was in it." He engaged the services of Shaw & Damron as his attorneys, and appeared in Justice Austin's court, when his examination was continued to November 22d, and he was bound over in the sum of $2500 to appear. Carver at once started out, in charge of an officer and accompanied by J. M. Damron, one of his attorneys, in search of bail. During the day almost every man with whom Carver had any acquaintance, or who was at all likely to befriend him, was visited, but without success, and late in the afternoon he was returned to the jail. Here he stated that his wife was very sick, and begged to be allowed to spend the night at his home, in charge of a deputy sheriff. This request Jailer Russell finally granted, and Carver was allowed to depart in custody of Deputy Henry Russell, the jailer's brother, who was instructed not to allow him to get out of his sight, on any pretense whatever, during the night.

During the day the following additional details of the affair were learned: Between 7 and 8 o'clock last evening two warrants were sworn out by W. B. Simonton, a prominent physician of Oakland, who, with his son-in-law, also a physician of the same city, arrived in the city yesterday, charging Carver with the embezzlement of $2500. The warrants were placed in the hands of Deputy Constable Hunter, who proceeded to the residence of Dr. Orme, at the corner of Bunker Hill avenue and Temple street, where Carver had rooms. The officer arrived at the house about 9 o'clock and found that his man had retired. He was aroused, placed under arrest and brought down town, where a hack was procured and the two started ont to get bondsmen. Among those who Carver tried to induce to go on his bond were E. C. Burlingame, the contractor, Walter S. Moore, John Koster, E. S. de Garmo and M. Denegan. He failed to get any of these gentlemen as bondsmen, and the deputy finally string of driving about the city on a fruitless errand, took his prisoner to the jailer and turned him over. Carver was accompanied to the jail by Walter S. Moore, who asked the jailer to give him the best accommodations he could and treat him as well as possible.

During the day there were numerous stories afloat concerning Carver, in which he figured in anything but an enviable light. Carver first came into prominence in Los Angeles some three years ago, in connection with the building of the San Gabriel Valley Railroad. He took the contract to build the road, a $500,000 job, when he did not have $500. He of course soon got into difficulties. He could not pay his men, who instituted a small-sized riot. Carver finally dropped out, and $5000 was raised to pay the most pressing demands, and the road was pushed to completion. Chief of Police Darcy was a sub-contractor under Carver at one time.

It was also learned that Carver, about a year ago, borrowed a very fine revolver from a friend and at once pawned it for $17, telling his friend that a man had carried it off to the mountains. He has never made any effort either to return the pistol or to pay for it.

Carver also tried to stand off the hackman for his ride over the city on Wednesday night, but the man would not have it that way, and he finally went to his house and got the money and paid the bill.

BEHIND THE VAIL.

A Complaint That It Is Very Dark There.

N. R. Vail entered suit yesterday against Louis Mesmer. The complaint sets forth that on the 14th of last January Mesmer leased the building 54 N. Main street to William Lacy for one year at $150 per month, and with the privilege of renewing for two years; that April 10th Lacy assigned the lease to Vail, with Mesmer's consent; that at the time the lease was made, two windows at the rear of the building admitted light and air, and were necessary for lighting and ventilation; that October 10th Mesmer erected, and has ever since maintained a high wall near these windows, thereby making the store dark and unventilated; that plaintiff has been injured to the extent of $1000; and for this amount he prays for judgment.

FELLOW CITIZENS!

LADIES AND GENTLEMEN—This is not intended as a spread-eagle oration or as a sample of our "Queen's English," but rather to remind you that it is growing ate n the afternoon of 1887; that only 60 days remain to you for the accumulation of wealth before you must make up your annual balance sheet. Having full confidence in the proposition that all Yankees love the "dollars of their daddies," and feeling absolutely positive that a rich return of those "daddy dollars" awaits all who invest a proportionate sum in the cream of all tracts in the southern part of the city, namely,

—THE—

NADEAU Orange Tract!

We most confidently invite you to do a little business with us. Bear with us while we tell you that the coming new boulevard of the city,

CENTRAL AVENUE,

Will undoubtedly within a short time rival Figueroa street. That it is four miles long, reaching from First street to the Ballona Harbor Railroad. That it is eighty feet wide and has a horse-car line the entire length (in course of construction). That in this beautiful

NADEAU ORANGE TRACT,

—ON THE—

Corner of Jefferson st. and Central ave.,

Your townsman, MR. DODSWORTH, has purchased six beautiful lots, and agrees with us to build at once a house to cost from $10,000 to $15,000. That several others have bought lots there with similar intentions, and we confidently expect to have the handsomest suburban tract in Los Angeles.

Now, time and space grow short, and we can only add: NOW IS YOUR OPPORTUNITY! We are underselling everybody in the neighborhood, giving longer time, easier terms, and generally making it easy for the dear public to get a home, a lot for investment, or, if you please, to sell to the next man at a profit. Call and get price list, maps and general information of yours truly,
